Create a portfolio projects using any of the following datasets

Sample datasets
1. Financial Dataset
https://docs.google.com/spreadsheets/d/1kmZtwNrw9_M0WtZSqfjK89xXlAYUXTzr/edit?usp=sharing&ouid=108249843804995578592&rtpof=true&sd=true
2. Airbnb listings
https://www.kaggle.com/datasets/dgomonov/new-york-city-airbnb-open-data
3. Covid-19
https://www.kaggle.com/datasets/imdevskp/corona-virus-report

Choose any dataset, do the data analysis using power BI. Upload your report in Github and provide that link in the Google Classroom. This is going to be a major project under your resume for showing your skill in power BI. Try to enhance your skill by doing more projects.

Score Distribution
1. Timely Submission (1 mark):

- Adherence to the submission deadline.

2. Importing and Preprocessing Dataset (4 marks):

- Proficiency in importing the dataset into PowerBI.
- Effective preprocessing techniques applied to ensure data quality.

3. Number of Visuals (7 marks):

- Utilization of a minimum of 7 visuals to convey insights effectively.

4. Inclusion of Buttons, Bookmarks, Images (4 marks):

- Incorporation of interactive elements such as buttons and bookmarks to enhance user experience.
- Integration of relevant images to complement data analysis.

5. Neat Organization of Report (4 marks):

- Clear titling, consistent colors, and thoughtful formatting to improve readability and aesthetics.

6. Insightful Analysis (5 marks): (Include it in the readme file)

- Depth of insights derived from the data.

- Demonstrated understanding of key trends or patterns.

Total Assessment Marks: 25
